

MT. STERLING ADVOCATE.

VOLUME XXIX.

MT. STERLING, KENTUCKY, TUESDAY, APRIL 13, 1920.

NUMBER 52

CONFERENCE AT SOMERSET CHURCH NEXT SUNDAY

The Montgomery County Training Conference of the Kentucky Division of Disciples' World Movement will be held next Sunday afternoon and evening at Somerset church. This movement is made up of the United Missionary Society with affiliated organizations in Kentucky and the Board of Education of the Disciples of Christ in Kentucky. Among the speakers from outside the county will be Clifford S. Weaver, who for seven years was a missionary in Japan, and J. H. MacNeill, Pastor of the Christinn church at Winchester. The sessions will commence at 2 and 7 p. m. Representatives from the Christian churches of the county are expected to be in attendance.

LIFE IMPRISONMENT

James Welch, of Douerail, has been sentenced to life imprisonment in the State reformatory at Frankfort, for the murder of J. S. Thomason, traveling salesman, of Lexington, on December 24th. The jury reached a verdict Sunday morning at nine o'clock after deliberating twelve hours. Eight of the jury favored execution. This case, on account of the prominence of the parties, has attracted widespread interest throughout this section, and the court room has been packed with curious spectators since the beginning of the trial last week. Welch's attorneys state that a new trial will be asked for.

Mrs. Thomason, charged with conspiracy in the murder will not be tried until July.

UNIVERSITY LECTURE

The sixth of the series of university lectures given under the auspices of the Women's History Club will be given by Prof. Nooe, of Lexington, at the club rooms in this city April 17 at 2:30 o'clock. Prof. Nooe's subject will be "What Is Education?" and this is expected to be one of the best lectures in the series.

EXCHANGE

The Women's Missionary Society, of the Presbyterian church will have an exchange at Ringo's Grocery Saturday, April 24. Every thing good to eat. Home made candy a specialty.

GARDEN SEED

If you are going to need garden seed, buy now. They are scarce and fill-up orders will be higher, that is the customer will get fewer seed for the same price. We have perfect seed and plants from them grow.—W. H. Wright's. (52-4)

PIE SUPPER

There will be a pie supper at the Montgomery County High School Friday, April 16th, beginning at 8 o'clock. The public is cordially invited.

AGENCY CONVENTION AT MT. STERLING

As already announced, the Eastern and Central Kentucky General Agency of the Pacific Mutual Life had its first big Agency Convention here Monday and today. This was in honor of a visit to this agency of Secretary Moore, Dr. and Mrs. Beckett, from the home office and at which were present General Agent Hoffman's agents throughout the field.

Monday was given over to business matters, Dr. Beckett and Secretary Moore, at the General Agency office, meeting with the examiners and agents, talking over matters in general and getting acquainted. That evening the agency force was entertained at dinner at the home of General Agent Hoffman at which announcement was made that business to April 1st showed a gain of nearly 400 per cent over the same period of last year, March showing an increase of 500 per cent. Business talks were made by Secretary Moore and Dr. Beckett—the latter quite nicely withstanding the approaches and reproaches of the agents over their pet applications which had been declined. Secretary Moore and Dr. and Mrs. Beckett, who are on a tour of inspection of their Southern General Agencies, speak in glowing terms of their Blue Grass agency and the wonderful record they have attained.

Tuesday was given over to sight-seeing in and around the town and county. Luncheon, at which the officers and agents were gathered, was served Tuesday noon. "Home Sweet Home" being then in order this most successful and enthusiastic agency meeting came to a close this afternoon.

BRILLIANT RECITAL

AT CLUB ROOMS

The Women's History Club room was the scene of a brilliant recital last evening when the music department presented the world famous violinist, Jules Falk, and his assistants, Malvina Ehrlich, pianist, and Estelle Wentworth, dramatic soprano, to a Mt. Sterling audience for the first time. A lovely program had been arranged and the artists gave their numbers beautifully, responding to a number of encores from an enthusiastic and appreciative audience. Mrs. Charles W. Kirkpatrick, of the music department of the club, introduced the musicians to their hearers in a very graceful manner.

MOVE

Mr. and Mrs. Charles T. Coleman will move this week to the residence on the corner of Maysville and High streets recently occupied by Frank J. Shaffer and family who have moved to the cottage recently vacated by Riggs Sullivan and family on Sycamore street.

The Advocate for printing

Get Good Roads Now Not Ten Years Hence

By T. W. ADAMS

No. 2.

The possibilities for Montgomery county under the new Kentucky Road Law, as set forth by the Fiscal Court elsewhere in The Advocate today, is an altogether admirable presentation of the situation. It points the way to a program by which Montgomery county may early enjoy the advantages of modern highways. The revenue bills by which funds are to be provided for the construction of the new State system of primary highways together with the sums available from Federal Aid, do not of themselves provide construction funds at a rate that would permit of constructing the entire system short of from twelve to fifteen years hence.

If Montgomery is to take her rightful place in the state's progress and development she cannot afford to wait on this slow and uncertain policy. Assured that in due time she will be reimbursed for such expenditures as she may make in forwarding immediate construction of the Montgomery county section of the new state system, it is believed her people will favor Getting the Roads Now.

The policy of the Federal government authorities in making Federal Aid available has been to designate such aid for the construction of certain specified roads or projects. In conformity therewith the Kentucky State Highway Department has designated certain routes as Federal Aid Projects. The Midland Trail, of which the twelve miles in Montgomery county between the Clark and Bath county lines is a part, is one of such projects. A large part of this project has either been completed or its construction provided for. It will undoubtedly be necessary for the new Highway Commission to continue the settled policy of the state in pressing for the completion of this as one of the Federal Aid projects.

In this connection it will be well to keep in mind that the Federal Aid fund available for the State of Kentucky is not and cannot be simply available for a general construction fund administered by the State Highway Commission, but that it will necessarily apply on the construction of certain definite projects, and that it will be available to the amount of one-half of the cost of such construction, payable as construction progresses.

It follows that with one-half the cost of the Midland Trail section available from the Federal Aid fund, the State Highway Commission would only require from Montgomery county funds to the approximate amount of \$120,000 (based on the figures set forth in the statement by the Montgomery County Fiscal Court), leaving \$180,000 of the proposed \$300,000 bond issue available for starting immediate construction of the other project from the Bourbon county to the Menefee county line.

With reimbursement to Montgomery county of the amount expended on the Midland Trail section, and with the proceeds of the suggested 20-cent levy, there would be in hand practically sufficient funds for the completion of this latter project.

By interesting the people of the different counties, it is entirely possible, and reasonable to expect, that both Project No. 32, running from West Liberty in Morgan to Paris in Bourbon, and Project No. 47, running from Bardstown to Ashland via Springfield, Harrodsburg, South Elton, Lexington, Winchester, Mt. Sterling, Owingsville, Morehead and Grayson, may be completed at an early date. In that event, and by and with the approval of the State Highway Commission, as provided and authorized by the new Kentucky Road Law, Montgomery county would then be reimbursed, and relieved of the burden of paying interest and sinking fund charges on the bonds.

To hasten the completion of these projects it is proposed to organize and conduct a campaign in each of the counties located on the different

projects, looking to the early completion of the work.

Taking Project 32, for instance, Bourbon county has already authorized a \$500,000 bond issue, which would indicate sufficient funds for the early completion of the Bourbon county section from Paris to the Montgomery county line. Morgan county has already undertaken considerable grading from West Liberty toward Menefee. With Morgan, Bourbon and Montgomery prepared to finance their part of this project it is believed there would be legitimate basis for the expectation that the State Highway Commission would naturally agree to take early steps for the completion of this project through Menefee county—and that would of course mean the completion of the entire project, and relieve the different counties of the financial burdens involved in financing construction, and relieve them from all further charges for care and upkeep.

By energetic pressing for the early construction of this project, by co-operation among the different counties to that end, it is entirely feasible to hasten by several years the construction and completion of this project, opening up to Montgomery county as it will a rapidly developing section of Kentucky, resulting in benefits mutual to Mt. Sterling, Montgomery county, and the citizens of the counties traversed by this proposed new modern highway.

To thus hasten the construction of this project, however, involves early and positive action by Montgomery. It is clearly indicated by the facts of the situation that those counties first providing themselves with funds for immediate construction, will be among those to participate in the early benefits resulting from the law providing for the construction of the state system of primary roads.

In the foregoing nothing has been said as to Montgomery's legitimate claims to a considerable portion of such new construction as the new State Highway Commission will authorize during the first year and years of its existence. This factor will provide the Fiscal Court with potent argument when, fortified by such funds as the county may authorize, negotiations are taken up at Frankfort looking to early construction of the projects affecting this county. Nor is it to be overlooked that the law provides for beginning construction of the new state system as nearly as possible simultaneously at a number of "centers of construction" of which Mt. Sterling has been designated as one.

LINCOLN WILLOUGH IMPROVING

Lincoln Willoughby, who was so severely burned in a gas explosion in this city about ten days ago, is improving. The following letter relative to the boy's condition was received by Dr. McKenna Sunday:

"Dear Dr. McKenna: Just a few lines to tell you that the little boy who was burned is getting along very nicely. He has become very nervous and seems to have a great deal of pain at times. However, his general condition is satisfactory and I believe he will get well. There are no very deep burns, so I think he will not be deformed in any way. If any untoward symptoms arise I will notify you.

Very truly yours,
WOOLFOLK BARROW.

TOMMY'S WIFE

The Senior class of the Mt. Sterling High School scored a big success in their play "Tommy's Wife" which they presented at The Tabb Thursday night. These young actors and actresses in their first attempt, showed real talent and were highly complimented on their play.

STRAW HATS

Complete assortment. Prices right.—W. H. Wright. (52-4)

MONTGOMERY FARMERS UNIONS PLAN MEETING

The Farmers Union Local held an enthusiastic and well attended meeting at the Court House in this city Saturday afternoon. The farmers were addressed by E. J. Hobdy, of Frankfort, State Organizer. Arrangements were made for a mass meeting of the Farmers Union Locals of this section and plans were discussed for obtaining higher prices for next season's tobacco crop.

After the business meeting T. W. Adams, of Ashland, gave a very interesting and instructive talk on the subject of "Good Roads" and urged the early construction of the Montgomery county section of the new State Primary Road System, running from the Bourbon to the Menefee county line and the Midland Trail section running from the Clark to the Bath county line.

This meeting concluded a series of meetings held in the county, others having been held at Stoops, Sideview, Spencer, High Top and Howard's Mill. Continued work of organization will be pushed by prominent Montgomery county farmers who have made a study of the advantages of co-operation for the marketing of farm products.

WILL NELSON HOFFMAN WEDS SOUTHERN GIRL

Will Nelson Hoffman, of this city, was married in Norfolk, Va., last week, to Miss Mary Monday, of Mississippi. The news of his marriage will be received with great interest here where he was born and reared and where he has hosts of friends and admirers. Mr. Hoffman who is the only son of Mrs. Marcia B. Hoffman, has served in the Marine corps for several years, and has for some time been stationed at Norfolk, where he has held the responsible position of private secretary to the Quarter Master. He comes of a prominent family and is a great favorite in society here. His bride who is a member of a cultured Southern family, has been engaged in war work in Norfolk for several months. She is said to be a beautiful and accomplished girl.

HAZELRIGG BIBLE CLASS TO VISIT LEXINGTON

The Hazelrigg Bible Class, of the Christian church of this city, comprising nearly 150 members, has planned to go to Lexington Sunday to attend the Rev. Mark Collis Bible Class, and morning services at the Broadway Christian church. The class will go in automobiles by way of Paris and North Middletown. They will be entertained at luncheon in the banquet room of the church, and in the afternoon will be taken on a tour of Lexington, visiting the historic spots in and around the city.

R. A. CHILES BRINGS IN ANOTHER OIL WELL

The oil interests of R. A. Chiles, of Mt. Sterling, one of Montgomery county's leading attorneys, are being rapidly developed. Last Tuesday the Little Paint Oil & Gas Co., operating the R. A. Chiles-J. W. Cochran lease of 550 acres in Johnson county, brought in a thirty barrel well on this property. The well was shot at 658 feet. Production in Johnson and Magoffin counties is being rapidly developed. The past two weeks has shown very substantial proof that all that section is soon to be recognized as one of the best producing sections in Kentucky. The wells are being brought in as a rule in the Weir and Big Injun sands and many also in the Berea. In Floyd county, adjoining Johnson, there have been producing wells in the Berea sand for the past thirty years. The outstanding characteristic of practically all the production in the general territory referred to above, is the long life of the production. The oil producers of Johnson have organized an association, are arranging for oil well supply houses, and a tremendous activity is looked for there this summer. A new pipe line is surveyed and either under construction or soon will be. There are already several hundred producing wells in the general territory of which the Johnson county field is approximately the center, the production of which range from a few barrels to as high as 75 barrels a well. It may be that there are even larger producers than this would indicate, and it is a fact that as development progresses, better showings are constantly being made.

INSURANCE AGENTS TO MEET AT OLYMPIA

The board has decided on Olympian Springs as the place for the annual meeting of the insurance agents of the State, and the dates June 17 and 18 have been selected. An unusually well attended meeting is expected this year and more than 150 guests have signified their intention of being present. An interesting program has been prepared and the 1920 meeting is expected to be the best ever.

Many improvements have been made to the hotel in the past months and Mr. Brown, "mine host," at the Springs, assures his patrons that he is well prepared to take care of them and is expecting a full house the entire season.

Millersburg Military Institute, at Millersburg, one of the oldest and best institutions of its kind in the South, has been sold by its owner, Col. C. M. Best, to Bourbon county. The county will remodel the buildings and will use them for a County High School.

Aids to Grace and Beauty

By Priscilla Dean

What Constitutes Beauty

"Is beauty only skin deep?" I once asked that question of a famous beauty specialist.

"Indeed, it is not," she replied. "Beauty of the skin is evidence of good respiration and a sound body structure. Beauty of countenance indicates a sweet soul and beauty of form results from wholesome activities. It cannot be denied that all of these are more than surface qualities."

By the old adage about beauty being only skin deep, one can be cast into the rubbish heap.

We know that the eyes are windows of the soul. Through them is reflected the light which radiates from within. How they flash when we are angry; how dim they become when we are sad. There are people who try to conceal their true characters, and, incidentally even wrinkles by training their faces to be unmovable and expressionless. Few, if any, really succeed. For, whether a person will or not, the face sooner or later becomes indelibly stamped with the owner's personality. An unexpressive countenance may effectively hide passing emotions, it cannot veil the natural curve and contour of features and the effect of those emotions on the mind and disposition.

Did you ever notice the perfect repose manifested in the faces of religious and other thoughtful, well-disciplined people? One often speaks of the former as beautiful when

viewed from an artistic standpoint. Many have irregular features and pronounced defects. One can also notice a repose and immobility of countenance in well-trained servants or a clever rascal but one seldom speaks of them as beautiful, even though their features may be regular and their complexion good.

Why? Because in the case of the common and staid people the most striking emotions are of the higher order, peaceful, intellectual and uplifting. The emotions of the latter are exactly the opposite and are disturbing influences mentally, even if the face is trained to remain impassive.

This illustrates, in a way, what a wonderful effect the intellect and habits of a person have upon the face and features. It also demonstrates that people who really try to gain beauty of face and form will simultaneously gain in other respects. For one of the first steps toward the attainment of beauty is to cultivate a taste for the good and beautiful things of life. One can judge a good deal of a person's character by what that person admires.

People who have not trained themselves to recognize real beauty are apt to mistake fashion for beauty. That, perhaps, accounts for some of the wild and weird effects one notices in the best ensemble of many girls and women one sees, any one of

whom might be charming if she just dressed her hair according to the standpoint of beauty as adapted to her own personality instead of in the exaggerated and, for amateurs, irresponsible fancies of fashion. I have seen pretty girls made almost unrecognizable by such mistaken efforts to look smart. Considering that their natural good points, although dimmed and obscured, were still apparent in spite of fangled or misplaced hair and bodacious faces, one can understand how very beautiful they would be once they could comprehend what real beauty is.

One of the first lessons in good taste and judgment in this respect is to learn to recognize grace, beauty and refinement in those who are universally acknowledged as possessing these qualities. Not long ago I saw some girls who were not skilled models trying on fashionable gowns. The girls were pretty and the gowns were artistic. Yet the two combined in most unladylike manner. The effect which the models desired to produce was absolutely lost. To begin with, every one of the girls seemed possessed of the idea that the most graceful manner of displaying their figures and the lines of the gown was by posing with her arms akimbo. The gowns were rather full and loose and short-waisted. I did not order one for, try as I would, I could not dispel the picture produced upon my mind of a scrub woman with her hands on her hips, at a back yard fence.

Artists have told me that the charm of womanly contour is in the sweep, or long curve, from armpit to ankle; that the accepted standard of feminine beauty requires that the shoulders be slightly drooping, the torso full, and widest at the hips, and that the front line from the breast bone over the abdomen should show, first a gentle and then a fuller outward curve.

Dress is a decoration but as only natural lines are pre-eminently beautiful, no artistic designer will ever build a dress so that it even appears

Confidence

Even in these days when the motor car field offers such wide selection—the public still finds Buick demands exceeding Buick production.

Thus it is easy to recognize how steadily, each season, the Buick Valve-in-Head motor car has become an essential part in the lives of men and women—as well as in the progress of commercial and professional activities.

It's superior quality—service—economy and dependability are causing thousands of persons to place their orders for car delivery months in advance—thus protecting themselves and assuring their ownership of this world-wide preferred motor car.

to alter them. No dress is beautiful nor becoming that suggests a personal deformity.

A woman's hips should be as broad as her shoulders. It has been said, however, that grace of motion is a finer quality than perfect proportions, and that a woman with a poor shape can be graceful as well as fascinating if she understands the art of dressing so that every muscle has full play and perfect ease of action.

The ideal beauty should only be fat enough to round all surfaces to smoothness. Any muscle that is firm and healthy, and constantly used will have no place for fat to accumulate. Un-used muscles cultivate fat. When a person is fleshy it is impossible to be either graceful or beautiful. Fortunately, there is such a thing as reducing.

One year of good exercise will do more for a woman's good looks than all the cosmetics and beauty medicines that could be prescribed. It is impossible, also, to add years to one's life by breathing properly. Take long breaths as often as you can think of it. Habitual deep breathing arches the muscles of the chest, throws back the head and shoulders, and compels an erect posture.

When the scenes were being photographed for "The Beautiful Beggar," I was particularly impressed with the proud manner in which some of the women of Jerusalem, who appeared in the picture, carried themselves. I was told that their regal bearing was the result of balancing water jugs and other articles on their heads. Their long, richly-be-embroidered scarfs which hang in straight lines from their

heads, almost to their ankles, and which weigh several pounds, also necessitate an extreme stateliness of head poise.

THE DEAR GIRLS

Never tell a girl you'll wed her—If you won't.
You'll have good cause to dread her—If you don't.
She will tell you, you're a brute. Bring a breach of promise suit.
Or, maybe, begin to shoot—If you don't.
You may think, perhaps you love

her; but you don't.
And you'll very soon discover—That you don't.
And you'll wish that you were dead.
And you'll go and paint things red.
And you'll want to soak your head, but you don't.

A WORTHY INSTITUTION

Hazelwood Sanatorium is now a state institution for tubercular patients, according to the bill passed by the General Assembly last week.

The sanatorium is one of three in Kentucky, but it is the only one which has been receiving people from over the entire state, as the other two are open only to county cases. The law provides that the county from which the patient comes shall pay for his treatment if he is not able to do so.

The federal government offered to buy Hazelwood as a sanatorium for its ex-service men. However, it was thought better to keep it as a state institution for the need of those who could not receive treatment under any other circumstances.

Hazelwood was formerly maintained and financed by the Louisville Anti-Tuberculosis Association, which, in turn, is financed by the Welfare League. Since the sanatorium has been taken over by the state the association is planning a progressive educational program to be carried out, first through the city, and then through the state in regard to the White Plague, which is more prevalent in Kentucky than in any other state in the country.

Archibald MacDonald, of Seattle, has been secured as executive secretary and the program will be financed by the funds which are now at hand, and which have usually been spent on Hazelwood.

FACTS and FANCIES

(By Mack)

A famous physician states that mud baths are beneficial to one's health. If that's a fact there should be a lot of healthy people in Mt. Sterling. (No advertisement for the Kentucky Utilities Co.)

Rick—It has been exceedingly quiet this week. I haven't heard any cries for help. Can you explain that?

George—Sure, the dentists are attending a convention in Louisville.

Gas Manager—Your meter is read each month.

Consumer—My face is the same when I receive the bill.

Rick—I was in Sharpshurg yesterday.

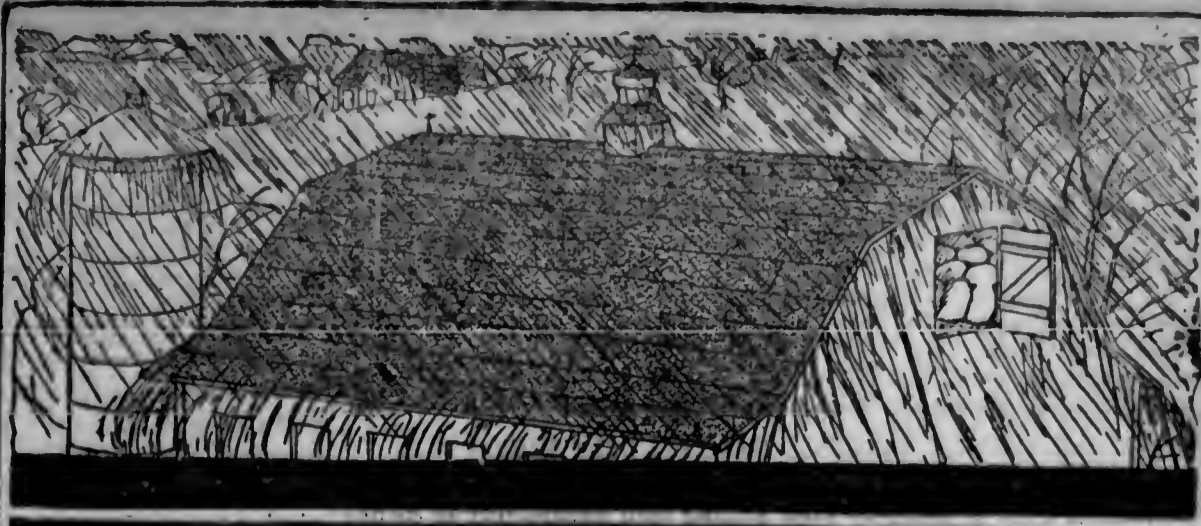

George—I didn't know they had air service to Sharpshurg.

Rick—They haven't; I borrowed the road commissioner's motor boat.

It looks as though the police department has saved the city the expense of erecting overhead street crossings by informing the would-be "Oldfields" to tell it to the judge.

The increase of marriage certificates since "leap year" set in show that the "Deah" young things are on to their "job."

From the fervor that several of

Protect Your Property With Certain-teed Roofing

Certain-teed Roofing shelters your property against the severest storms. Driving rain will develop no leaks. Melting snow and ice will find no cracks or crevices through which to enter.

Certain-teed keeps the interiors of your barns and other buildings dry. It protects their contents from damage by water.

For when Certain-teed is properly laid, it is firmly cemented together. It makes an impenetrable one-piece roof.

And Certain-teed has other advantages. It is fire-retarding and spark-proof. It is guaranteed for 5, 10 or 15 years, according to weight.

Yet Certain-teed Roofing costs less to buy, less to lay and less to maintain, than any other type of good roofing.

See your dealer about Certain-teed. He either has it or can get it quickly from a nearby Certain-teed distributing center.

The fine steels in a MAXWELL

stir your enthusiasm

Ride in a Maxwell and your enthusiasm is stirred for this commendable car.

You attempt to search for the cause and you find it in the steels used in the Maxwell. Those fine steels that give rare strength.

Such steels take the burden of dragging around useless weight from the engine, providing brilliant performance.

Pound for pound the steels in a Maxwell equal those in any car built.

The Maxwell construction, employing these fine steels, results in a light-weight car, that gives not only brilliant performance, but the rare combination of durability, economy and comfort.

Today nearly 400,000 Maxwells may be seen on the world's highways. 100,000 more are in process of construction.

Still this will supply but 60% of those who have set their minds on a Maxwell for 1920.

H. W. PATRICK, Agent

KENTUCKY MATERIAL FOR KENTUCKY ROADS

In the course of a statement by the Montgomery County Fiscal Court reference is made to Kentucky Rock Asphalt road construction as costing nearly one-half less than brick or concrete. Kentucky possesses in her natural resources all the material required for modern road construction. Aside from considerations that would naturally make for a preference for Kentucky and Kentucky made products, there are other and vital reasons why they should be given preference. There is a widespread and general shortage in building construction material, of which brick and cement constitute such a large proportion. Every means whereby brick and cement are conserved, thereby making the manufacturing plants of these commodities available in larger measure for building construction material will help in keeping down the high cost of building, and aid in solving the acute housing problem with which the nation is now confronted.

WHAT OUR RELIGIOUS BELIEVERS SAY

The Advocate in sympathy with the people who own their living by the sweat of the brow and with a vision for the betterment of road conditions has given to the citizens of this and adjoining counties most interested correct picture, as we have seen them, and pointed out the only economic way of relief. In order to secure the best of all things useful, there is a cost and the more valuable the product the expenditure. The State through her law making powers and the National Government through her as well have viewed the deplorable situation in the transporting of all grades of traffic by motor and otherwise and with us intensely interested in solving road problems, have created enactments so that necessities along good road efforts could be met at once. It is with pleasure we note our county commissioners viewing the way blazed by The Advocate and giving the public through this issue for their serious consideration a formulated statement, reviewing conditions, pointing out impossibilities under present conditions and forecasting a way of relief. We would have every citizen whether tax payer or not to give careful and thoughtful study of the public statement this day given, in order to intelligently act when the matter is put up to them for final decision.

SASSAPARILLA IN DEMAND

With R. W. Keener as president of a company with a \$30,000 capital stock, a new industry starts up at Lexington to manufacture sassaparilla and other oils. Mt. Sterling is near the sassaparilla product and our people should be doing some thinking along the lines of small factories at this time.

CORRESPONDENCE

Hope

Mr. Charles Stephens, of Berleville, W. Va., is visiting his parents, Mr. and Mrs. L. A. Stephens.

Mrs. Ada Wiley, of Sideview, was the guest of her parents, Mr. and Mrs. George Dunaway, Saturday.

Miss Carpenter and family, who recently went to live near Muncie, Ind., have returned to Bath county to make their home.

"FANNY AND THE SERVANT PROBLEM"

The University of Louisville Players who will present "Fanny and the Servant Problem" at the Tabb Theatre Tuesday evening, April 20, under the auspices of the Ladies Aid Society of the Baptist church, come to Mt. Sterling with an enviable reputation. They have appeared in a number of excellent plays including

"Ten Never Can Tell" by George Bernard Shaw; "The Admirable Crichton" by Sir James Matthew Barrie; Sardou's "A Scrap of Paper"; Modeline Lucet Riley's "Mice and Men"; "Green Stockings" by A. E. W. Mason; "Pinner's 'Trelawney of the Wells" and a number of other plays.

A New York critic recently in an article credited the players with doing the best work of any college in the country, citing Harvard as the first college in the country in dramatics.

The University of Louisville Players have been written of in "The College Magazine," "The Theater Magazine," the Dramatic Mirror and have had special articles about them in "The Courier-Journal" and "The Louisville Herald." Their performances are complete in every respect. They build their own scenery, arrange their own lighting and create their own "properties" and furniture. Local play-goers are promised a complete production in every respect when the Players appear here. Seats for the engagement are now on sale.

POSTERS ANNOUNCE FIRST CIRCUS OF THE SEASON

Three rings! Sure there are, if you doubt it, count 'em. The No. 1 Advertising Car in charge of J. M. Randolph arrived in the city Monday, April 16th and his crew of 22 men immediately started to work putting up the flaring posters and bills that set forth the wonders innumerable of the big performance.

The Sparks Circus bears the distinction of being one of the oldest, largest and best and this year's program includes lions, tigers, leopards, bears, and even camels, along with acrobats with human stunts. It's going to be just one day after another, from the opening act—the first half of numerous elephants and giraffes being worked, by the way, to the great "Mystic" who causes many people of wonderment in his backward and forward stunts for the first time in the history of the circus, to the grand finale—a distance of 150 feet.

Let them stare! Well I should say so! Every body of them and every one of them, because there is a lot more to see than all the other acts put together in a lifetime. There are no full of funny stunts as there is at Biddisford and just to add good humor to the crowd of high class acrobats are interspersed throughout the entire performance. Sparks Circus will be in Mt. Sterling Monday, April 20th.

Public Sale!

of Personality

Saturday, April 24th,

THE TRUTH ABOUT UNCLE JOHN SHELL

There are quite a number of local citizens who paid to see "Uncle John Shell" at the 1919 State Fair and Lexington Fair, believing he was as represented, "the oldest living man, aged 131 years." The publicity given this aged man by newspapers spread to every section of the country, and in order to fully comprehend his habits of living which caused his longevity, Dr. I. L. Nasher, of New York City, recently visited the old Shell home on Grassy Creek in the mountains of Eastern Kentucky. After making extensive investigations he says in part in a page article in the New York Sun and Herald a few days ago:

in most humble circumstances. His eldest child is seventy-five while the youngest is only four years of age. The appearance of this old man at the many fairs in the State was welcomed by friends near his home in order that they might procure bushels of money for him, but instead, Mr. Shell claims that he received only \$199 of the proceeds.

WILL MOVE TO THIS CITY

Mrs. Sallie D. Brother, of Owingsville, has rented of Miss Margaret Bogie the Tabb residence on West Main street and will move to this city to make her home with her son Dawson Brother, of the Exchange Bank.

In 2000 Counties This Month

The Forces of the Church of Christ
Will Gather to Face the Facts.

IN 2000 counties in 36 states the pastors and laymen of 30 great denominations will meet in conference this month.

It is the kind of conference that generals hold before a critical engagement; that business men hold before entering a new market. A conference of judgment, not emotion; a clear-eyed facing of the facts.

A Survey that Business Men Must Admire

For more than a year hundreds of workers have been quietly engaged in making a scientific survey of the mission fields, and of America county by county.

The facts developed are startling. The charts and maps will amaze you. No such picture of America's religious situation has ever before been drawn.

On the basis of these surveys the program of the Interchurch World Movement is being built.

What the Movement Is.

This movement is a clearing house for the activities of the "forward movements" of 30 denominations. It is the basis of co-operation for the churches of America in a mighty effort to face the facts revealed in the surveys which are being conducted by the movement.

You, as a minister of the Gospel, or earnest layman vitally interested in the upbuilding of God's kingdom on earth, should know the task which lies ahead and the part which the Interchurch World Movement is to play in facing the situation.

Whether You Are Inside the Church or Out

To every man and every woman who loves his country, these 2000 county conferences are vitally important.

For the facts developed by this great survey show vividly what forces are at work in America—and what kind of a country this country is to be.

See that the pastor of your church appoints delegates. Any pastor can tell you the conference place and date. Or write direct to the

INTERCHURCH WORLD MOVEMENT

SOUTHEASTERN DIVISION—517 Peters Bldg., Atlanta, Ga.

The publication of this advertisement is made possible through the co-operation of 30 denominations.

SOCIAL EVENTS

Stag Dinner

W. A. Mason entertained a number of his friends with a Stag Dinner Thursday night at his home on Holt avenue in honor of his birthday. The color scheme of pink and white was used and was tastefully carried out in the decorations, ices, etc. Pink and white roses in silver baskets were placed at each end of the long table, while a huge birthday cake with the pink candles occupied the center. A delicious menu of several courses was served. Mr. Mason's guests were: Messrs. Stewart McCormick, R. M. Jones, Fisher Mark, Will Howell, Clark Patterson, Paul Thompson, Oliver Howell, J. Clayton Ramsey, W. H. Ramsey, H. H. Coppage, Robert Mason, Luther Mason and Hughes Atkinson.

Convention Entertained at Dinner

General Agent H. G. Hoffman and Mrs. Hoffman entertained the Agency Convention at dinner Monday evening at their beautiful home which looked unusually attractive, being profusely decorated for the occasion in spring flowers, jonquils predominating. After a general welcoming, a beautifully appointed dinner was served, the color scheme of yellow being carried out in jonquils and shaded yellow candles. After dinner Secretary Moore gave a very interesting and enlightening talk on the work of the Pacific Mutual in which he stated that the company is writing business at the rate of \$100,000,000 a year, especially commending this agency, giving figures which showed that the business had been quadrupled since this time last year. Dr. Beckett's talk on the Medical Department was very helpful and of vital interest to the agents. General Agent J. M. Gantz, of Cincinnati, gave an enthusiastic explanation of the various policies written by the Pacific Mutual. The charming hospitality of General Agent and Mrs. Hoffman was thoroughly enjoyed and deeply appreciated and every agent present carried away from the meeting renewed interest in and an added enthusiasm for their chosen work. Covers were laid for the following: Secretary Moore, Dr. and Mrs. Beckett, Los Angeles, Calif.; General Agent J. M. Gantz, Cincinnati; Mrs. Will Young, Morehead; Mrs. B. F. Cochran and Miss Eddie Osborne, Winchester; R. J. Bailey, Middlesboro; Oliver Kash, Jackson; M. E. Vaughn, Berea; Bullitt McCoun, Frankfort; D. W. Saxigle, New York; Dr. W. R. Thompson, Dr. P. K. McKenna, Mr. and Mrs. J. M. Hoffman, Mrs. Mattie Myers, Miss Alpha Enoch, Miss Flo Shirley, R. L. Coleman, Lewis Judy and Meredith Cox.

MISS LUCILE HULS WEBS

The marriage of Miss Lucile D. Huls and Mr. Byron E. Reed, of Columbus, Ohio, and Shreveport, La., was solemnized at the home of the bride's parents "Honeysuckle Heights" at 4 o'clock Friday afternoon, April 9th. Only the immediate family and a few other close friends were present. Rev. J. T. McGarvey was the officiating minister. Little Elizabeth Dudley Fox, niece of the bride, was the ring bearer, carrying the rings in the heart of a calla lily, the double ring ceremony being used. Mrs. Roy S. Chambers, of Sardonia, Ohio, was matron of honor and Dr. Chambers the best man. A musical program was given before the ceremony by Miss Mary Huls, sister of the bride, at the piano and Mr. Edwin Cobb, violinist, of Richmond. Mrs. Corinne B. Quenbacher, of New York City, sang beautifully Cadman's "At Dawning" and "I Love You Truly."

The bride was beautifully gowned in a brown tricotlette with hat and shoes to match and carried Richard Roses. The matron of honor wore blue crepe meteor and carried Kilmarney roses. The house was attractively decorated, a profusion of spring flowers being used. After the ceremony the bridal pair left for a visit to Mr. Reed's parents at Columbus, O. They will leave this week for an extended western tour.

BERGER AND NEWSBERRY

Victor Berger and Truman H. Newsberry stand alike as convicted of violating a federal statute.

Both have been sentenced to prison and are both appealing their case in the hope of having it reversed.

Victor Berger was elected as a

Chesapeake & Ohio R'y

member of Congress from the Fifth Wisconsin district, but accused of a crime against the government whose laws he must take oath to support, he was, by almost unanimous vote, denied a seat in the membership of that body. Subsequently he was elected to a second term, and by practically the same vote, he was again denied his seat.

Republicans joined with Democrats in excluding from the law-making body of the nation a man under conviction of violating the most sacred of the laws he must pledge to uphold, and the country applauded their action.

But what of Truman H. Newsberry? He is under conviction and sentence of a United States court for having entered into a criminal conspiracy to defraud one of the most sacred of

American institutions, the right of free elections. A cloud already upon his title, he persisted in occupying his seat in the Senate to make the Republican majority in that body secure, and now, under conviction like Berger, he is unwilling to vacate that seat.

Newsberry has been convicted by the courts, but it is a Republican Senate that is now on trial. Will it have the indecency to permit this man to take part in the councils of the highest law-making body of the world, even though its own spurious majority be at stake?

JUST GOT OVER A COLD

Look out for kidney troubles and backache. Colds overtax the kidneys and often leave them weak. For weak kidneys—well, read what a grateful user says:

Jno. F. White, Olympia, Ky., says: "I caught a wretched cold that settled on my kidneys and I had sharp, knife-like pains in my back, across my kidneys that I could hardly get up when I was down. Nights I couldn't rest well and my kidneys acted irregularly. I had dizzy spells and headaches, too. A druggist recommended Doan's Kidney Pills to me, and I got a box. They relieved the dizzy spells, regulated my kidneys and strengthened my back. I can recommend Doan's Kidney Pills to anyone."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. White had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Why do women keep hollering for equal rights. Haven't us married nuts recognized her equality by permitting her to tend to the furnace and mow the lawn.

How Republicans Reduced the Taxes

Some Interesting Facts of Special Taxation Levied by the Last Legislature

Governor Morrow went into office chiefly upon the ground that it was his duty and purpose to reduce taxation. There was no change made by his legislature in the tax law, so that all the taxes which were levied under the Stanley administration will continue to be levied under the Morrow administration. In addition to this, the following is a list of special taxes imposed:

On whiskey in bond, 50 cents a gallon.

On tobacco held for the purpose of manufacture, 40 cents on the hundred dollars.

County school tax increased from 30 cents to 50 cents for the maximum and from 15 to 25 cents for the minimum.

Tax on gasoline one cent per gallon.

Tax on automobiles sixty cents per horse power.

Each hotel or tavern 50 cents per room, and the minimum not to be less

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Medicine. Hall's Catarrh Medicine has been taken by catarrh sufferers for the past thirty five years, and has become known as the most reliable remedy for Catarrh. Hall's Catarrh Medicine acts thru the Blood on the Mucous surfaces, expelling the Poison from the Blood and healing the diseased portions. Merit That Makes Mileage —In Tires for the Smaller Cars

Such extraordinary competence and carefulness as are characteristic of all Goodyear manufacture likewise characterize Goodyear's building of tires for the smaller cars.

Only very unusual experience and endeavor make possible the high relative value built into the 30x3, 30x3½, and 31x4-inch Goodyear Tires in our Plant No. 2, the world's largest factory devoted to these sizes.

In addition to the larger sizes Goodyear builds, a daily production averaging 20,000 tires of these smaller sizes alone makes them easily available, regardless of the big demand, to owners of Ford, Chevrolet, Dort, Maxwell, and other cars taking these sizes.

If you are one of these owners, go to the nearest Goodyear Service Station Dealer for these tires, and for Goodyear Heavy Tourist Tubes. He carries a stock.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread... \$23.50
30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread... \$21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water-proof bag... \$4.50

Shooting gallery, \$5.

Retail dealers in soft drinks and ice cream, 3.

On each theatre, 20 cents per seat per annum, minimum charge to be \$10. This includes moving picture show houses.

Automobile agents, \$10 for each different kind of automobile he sold.

Automobiles used for hire, \$5.00 for each car.

Second-hand dealers of personal property, \$100.

The above represents taxes in excess of \$5,000,000 a year.

Why Have "Spring Fever?"

Why Worry, Fret, and Get Nothing Done—Just Because Your Blood Is Sluggish?

YOUR BLOOD NEEDS STRENGTHENING

People Nowadays Take That Wonderfully Effective Blood Tonic, Pepto-Mangan—Your Druggist Has It

Really, isn't it foolish to be handicapped for weeks in the Spring, just because your blood is sluggish?

The glorious Spring days! You ought to enjoy them, instead of feeling unhappy and half asleep—just too tired out for anything. You ought to be finding new vigor for your work in the Spring air—"pep," enthusiasm, happiness!

But you can't, because your blood is clogged with poisons. For long months it has had too little fresh air and has fought off many germs. And it now has heat-making properties that are not needed in warm weather.

Don't work under a handicap, when it isn't necessary at all. Clear up your sluggish blood. Give it help. Get some of that famous blood purifier and tonic, Pepto-Mangan.

Pepto-Mangan is used by physicians everywhere. You can buy it at any drug store in either liquid or tablet form, just as you prefer. There's no difference in medicinal value.

Be sure that you get the genuine Pepto-Mangan. Ask for "Gude's" Pepto-Mangan, and see that the name "Gude's" is on the package.—Adv't.

During the flu epidemic a young woman sent her husband the following telegram: "Baby is sick, come at once, with the flu."

HANDS, ARMS, LIMBS ASLEEP

And Was Run-Down, Weak and Nervous, Says Florida Lady. Five Bottles of Cardui Made Her Well.

Kathleen, Fla.—Mrs. Dallas Price, of this place, says: "After the birth of my last child... I got very much run-down and weakened, so much that I could hardly do anything at all. I was so awfully nervous that I could scarcely endure the least noise. My condition was getting worse all the time. I knew I must have some relief or I would soon be in the bed and in a serious condition for I felt so badly and was so nervous and weak I could hardly live. My husband asked Dr. about my taking Cardui. He said, 'It's a good medicine, and good for that trouble', so he got me 5 bottles... After about the second bottle I felt greatly improved... before taking it my limbs and hands and arms would go to sleep. After taking it, however, this poor circulation disappeared. My strength came back to me and I was soon on the road to health. After the use of about 5 bottles, I could do all my house-work and attend to my six children besides."

You can feel safe in giving Cardui a thorough trial for your troubles. It contains no harmful or habit-forming drugs, but is composed of mild, vegetable, medicinal ingredients with no bad after-effects. Thousands of women have voluntarily written, telling of the good Cardui has done them. It should help you, too. Try it.

A STATEMENT OF THE FACTS ABOUT MONTGOMERY COUNTY'S TURNPIKE SITUATION

To The Citizens and Taxpayers of Montgomery County:

At the urgent request of many citizens, we beg leave to submit the following statement and sincerely hope the reader will not discard it until he has given it his very careful and serious consideration, dealing, as it does, with a very pressing and vital question; one which requires united thought and counsel and cannot be postponed for long. We refer to the condition of our turnpikes, created by the ever increasing use of AUTOMOBILES and HEAVY MOTOR TRUCKS.

For the past two years we have labored zealously upon our public thoroughfares and were beginning to feel we could see some improvement; then one open winter, with an excessive rainfall came and TRUCKS HAULING CAR-LOAD LOTS have literally ruined them. As explained by the last Grand Jury, in its report, the law authorizes such misuse and we are powerless to prevent it. The legislature, just adjourned, furnished no relief, from the HEAVY TRUCK TRAFFIC.

It did, however, pass a bill called "THE KENTUCKY ROAD LAW," which becomes effective about JULY 1, 1920, in which it is provided for the state of Kentucky to take over about thirty-five hundred miles of roads, designated as "PRIMARY ROADS," to be constructed, repaired and maintained by and under the supervision of the state. Of these primary roads there are about thirty-one miles in this county, consisting of about five miles from the Clark county line to Mt. Sterling; seven miles via the Owingsville pike from Mt. Sterling to the Bath county line; about nine miles from Mt. Sterling via Paris and North Middletown pike to the Bourbon county line and about ten miles via Jeffersonville, to the Menefee county line.

This new law provides no MONEY FOR THE IMMEDIATE CONSTRUCTION OR MAINTENANCE OF THESE PRIMARY ROADS, but on the contrary expressly provides that the state will do nothing on these primary roads until re-constructed or taken over by it. The State Road Commissioner, in a general letter says "It will require ten to fifteen years for its ultimate completion," but further states, that the law authorizes any county having funds available to construct any part of such road, to take up the question of its immediate construction with the State Highway Commission and that when the entire project of which said road is a part shall have been completed, the state will refund to the county the sum thus advanced. It will be noted no time is fixed in which the state is required to refund this money, same not being payable until the ENTIRE PROJECT of which the work in our county is a part, shall have been completed.

The State Road Commissioner has also suggested that he believed when the new Highway Commission is appointed, it would be possible to secure an agreement as to when we would be re-imbursed, if our part of one project were finished, so that the second project could be commenced. This, however, is merely an expression of opinion and may or may not be correct. Unless such an agreement could be had, it might be ten to fifteen years before the money would be refunded and in the mean time we would be obliged to take care of the interest and sinking fund, but would be enjoying the numerous benefits that go with a permanently improved highway.

The projects in which our county is concerned are: No. 32. From Paris to West Liberty, via Mt. Sterling and Frenchburg, and No. 47, from Bardstown to Ashland, via Springfield, Harrodsburg, South Elkton, Lexington, Winchester, Mt. Sterling, Owingsville, Morehead and Grayson.

FUNDS NOW AVAILABLE AND MILEAGE OF ROADS

Montgomery county now has approximately one hundred and thirty miles of turnpikes and one hundred and seventy miles of dirt roads. Our annual road fund amounts to about twenty-seven thousand dollars and our apportionment of the state-aid money amounts to about five thousand, five hundred dollars a year and we have never failed to ask the limit of state-aid. This is all the funds available, under the law, for the repair and maintenance of ALL our turnpikes, ALL our dirt roads and ALL our bridges. We cannot use any material better than macadam and it will not stand the HEAVY MOTOR USAGE of today. As motor traffic is yet in its infancy, the situation will grow worse each year. A macadam road re-built one year at a cost of from five to eight thousand dollars a mile, under state supervision, will not withstand one winter's wear. These are FACTS and we might as well face them squarely and look for a solution. The only solution, as we see it, is the employment of one of the several kinds of material harder and more durable than macadam. To do this, however, requires the expenditure of MONEY and LOTS OF IT.

Our information is that Kentucky rock asphalt will cost about twenty thousand dollars a mile and concrete and brick nearly double that sum, all subject of course, to labor conditions, railroad facilities, etc.

During the past January, the Fiscal court, for the purpose of being ready to ask for Federal Aid, had the Winchester road surveyed by engineers designated by the State Road Department and the Division Engineer has reported to us that the type of road the Federal Government Engineers would require, would cost about thirty-five thousand dollars a mile.

We are further informed by him that all Federal Aid money hereafter comes through the State Highway Commission, to be appointed by the Governor under the new law hereinbefore referred to and that no more direct Federal Aid will be given to counties.

As to what we shall do with our roads is now an economic and a business question. Macadam roads simply will not stand up under the heavy motor traffic of today. To build macadam roads under present conditions of traffic, is therefore an economic waste and a proven failure.

WHAT WE CAN DO UNDER THE LAW

The constitution of Kentucky (Section 157a), limits a bond issue to five per centum of the assessed value of the property in the county and to a levy of twenty cents on the one hundred dollars of taxable property for the purpose of taking care of the interest and providing a sinking fund to retire the bonds. We have approximately eleven millions of dollars in taxable property that could be subjected to this tax, if the people so desire. This would realize about twenty-two thousand dollars per annum, or a sum sufficient to take care of about three hundred thousand dollars of thirty year serial bonds.

Some good lawyers think the law also authorizes an additional levy of not exceeding twenty cents on the hundred dollars of taxable property for not more than ten years, for road purposes. There is, however, some question about this.

WHAT WOULD THIS ACCOMPLISH

It is impossible, under the law, for Montgomery county to re-construct of the permanent kind of material named, the thirty odd miles of primary roads, at one time, as the cost would be more than twice the amount we could legally raise. A bond issue, within the constitutional limits would, however, furnish the money needed to meet the requirements of the State Highway Commission, to start the work of an improved system of highways and the twenty cent road tax, (if legal), would supplement the bond issue and keep the work going until completed. The present levy of twenty-five cents for road purposes could then be made available for the better maintenance and improvement of the other pikes and dirt roads. After they are once accepted by the state, these primary roads, will thereafter be maintained by the state and without cost to the county. This would make a total road tax of sixty-five cents on the hundred dollars.

HOW ARE THESE QUESTIONS SUBMITTED?

The Fiscal court, at any time, can submit the question as to the twenty cent road tax (Section 4307 b-1, Ky. Statutes). The bond issue can be submitted by the County Court, AFTER the County Judge is petitioned to do so by at least one hundred and fifty free holders (land-owners) of the county. The election cannot then be had on a day earlier than sixty days after the filing of the petition and the Sheriff must advertise the election at least thirty days. (Section 4307 Ky. Statutes).

CONCLUSION

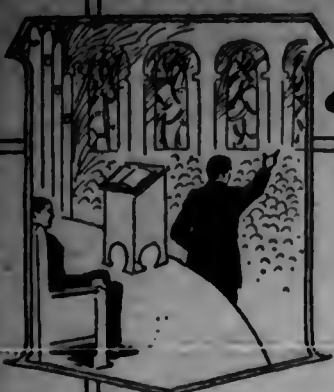

We are and have always been for good roads—the very best permanent kind we can get and can provide the money to pay for—and therefore submit this communication for the thoughtful consideration of our citizens and taxpayers in the hope it may be productive of good results.

Very respectfully,

FISCAL COURT OF MONTGOMERY CO. KY.

E. W. SENFF, County Judge
A. S. HART, Commissioner,
DAN WELCH, Commissioner
R. G. KERN, Commissioner.

April 20, 1920.

Give Self and Substance

GOD wants you! Your substance is secondary and will be given willingly when your heart belongs to God.

I have you discussed with your family how much you ought to give your Presbyterian church when the annual canvass for pledges is made April 25 to May 2?

Money cannot repay God's mercies. He wants service. But money will show to some extent the value you place on the work of the church in the community. It is to the church you look in time of sorrow and trouble. The church stands for the moral good of this town. You cannot do less than support it with a fair proportion of your income.

Presbyterian men, surprise your pastor. Volunteer as a Minute Man, boys' club leader, or as special caller. Take part in prayer meeting. Offer to teach a Sunday school class; and be a prepared teacher. Do your share gladly in the financial canvass. Get into the church and work. Don't forget the canvass in your family prayers.

Come to Church Sunday

DEMOCRACY IN BATTLE ARRAY

The big Democratic gathering in Louisville last week was more than a conference, although party men from every section of the State took counsel of each other; it was more than a banquet, and yet this feature was perfect in every appointment and detail; it was more than the mere lis-

tening to addresses, albeit what was said was forceful and inspiring.

It was a mingling of the great heart and purpose of Kentucky Democracy, dedicated to service. It was the formation in battle array of a host defeated, but triumphant in its spirit. It was the beginning of a march to victory.

AFTER GRIP

WINTER COLDS—

BAD BLOOD

You are pale, thin, weak—with little vitality. Your liver is sluggish and the bad blood causes your stomach muscles to lose their elasticity and become flabby and weak—then indigestion.

Dr. Pierce's Golden Medical Discovery, made from wild roots and barks, and free from alcohol or narcotics, is the great and powerful blood purifier of to-day. Ingredients printed on wrapper. This tonic, in liquid or tablet form, is just what you need to give you vim, vigor and vitality.

Take the 'Discovery' as directed and it will search out impure and poisonous matter throughout the system and eliminate it through the natural channels.

You can procure a trial package of the tablets by sending 10c. to the Invalids' Hotel, Buffalo, N. Y.

Lilly, Ky.—"I suffered from stomach and liver trouble. Had 'gassy' stomach and heartburn and had headache most of the time. After each meal I was sick, could scarcely keep anything on my stomach, not even water. I didn't think there was a medicine made that would cure me; but after using Dr. Pierce's Golden Medical Discovery I can eat anything I want and it does not hurt me. I will always praise this medicine."—MRS. LIZZIE FREDERICK.

The Democratic party has never lost a fight in the State when it is united, and it has never been more united than it is today. Defeat has roused it from its lethargy. Determination is in every Democrat's soul. There are no more party knockers. They are all turned to boosters.

"United we stand, divided we fall," is not only Kentucky's motto. It is Kentucky Democracy's lesson. Divided, the party has fallen; united, as it is today, it will stand and succeed.

Learn one thing each week: The match factories produce seven matches per day for every man, woman and child in the world.

Seed potatoes and onion sets at Vanarsdell's.

Mrs. Chas. Peden Gains 27 Pounds

Was Twice Examined and Each Time Told Operation Would Be Her Only Hope

"I have just finished my third bottle of Tanlac and have gained twenty-seven pounds," was the truly remarkable statement made by Mrs. Chas. Peden, residing at 550 Mill Street, Huntsville, Alabama. Mrs. Peden is one of the best known and most highly respected women of that city, where she has made her home for a number of years.

"When I commenced taking the medicine," she continued, "I only weighed ninety-eight (98) pounds; now I weigh one hundred twenty-five pounds and never felt better in my life. For years I have suffered with a bad form of stomach trouble, constipation and pains in my side and back. At times the pains took the form of torture and I was twice examined and each time told that an operation would be my only hope. I had fallen off until I only weighed ninety-eight pounds and was so weak I could hardly get around."

"I had no appetite scarcely at all, and what little I did eat would cause gas to form in my stomach which gave me palpitation of the heart, sick headaches and a dizzy feeling about the head. When those spells came on me I would get awfully nervous. I worried about myself until I could rest and sleep but little."

"I had fallen off until I was almost 'skin and bones' and my strength and energy were slowly leaving me. I had a dread of the future and could see nothing but the operating table and the knife. I had a perfect horror for an operation, but had made up my mind that it was either life or death and prepared to submit to it. I had made all preparations for the operation and called on my sister to tell her goodbye, as I did not know whether I would live to see her again or not. My sister begged and pleaded with me not to allow them to cut on me, and told me to wait and try a good tonic for a while. The next day as I returned from the consultation room I thought of what she said, and as I had heard so much about Tanlac, I decided to try it as a last resort, and stopped at the drug store and got a bottle. Of course, I had lost heart and had no faith in medicine, but to please my sister, I made up my mind to take it, and oh, what a happy day that was for me!"

"I never returned for the operation, but just kept taking Tanlac, and my improvement has been so rapid that none of my clothes fit me. Right from the start I began to improve. The medicine seemed to take hold right at once. It had a soothing effect, and in a few days I felt no pain at all. I was so happy over my wonderful improvement that I sent for my neighbors to tell them how much better I felt. I sent and got another bottle of Tanlac and have just finished my third and feel like I have been made over again into a new woman."

"As I have said before, I now weigh one hundred and twenty-five pounds, and none of my clothes are big enough for me, and I will have to make them over again. I now have a ravenous appetite and my husband says I am simply eating him out of house and home. I have even gone back to my coffee, which I was told not to touch. Those horrible pains in my back and head have all disappeared and I sleep like a child. I am no longer nervous, and when I get up in the mornings I feel refreshed, cheerful and bright. I am now able to attend to my housework again, and I feel as if I had started life all over."

ONE SAD SOUL

While millions of American mothers and fathers were thrilled to ecstasy by the news that Germany had signed an armistice on terms equivalent to an unconditional surrender, there was one gloomy foreboding soul to whom the tidings of surrender brought no joy.

It was Senator Frank B. Brandegee, of Connecticut, one of the leading Republican members of the United States Senate.

Senator Brandegee was temporary chairman of the Republican State Convention in his home State last week and after enumerating all the sins, omissions and commissions, of the Wilson administration, he said:

"When the tide of battle had finally turned and the Allied armies have marched to Berlin and made their victory complete, the President promulgated his 14 points, which resulted in an armistice."

Senator Brandegee is entitled to his opinion upon the virtue of signing the armistice, and if he thinks the American army should have marched to Berlin at a cost of a million brave American soldiers, that is his right.

His opinion, however, as one of the most influential members on the Republican side in the United States Senate cannot escape notice. If the fathers and mothers and brothers and sisters of Kentucky boys who would have been lost in that long and bitter campaign believe with Senator Brandegee they should follow him and his party. If they believe that the armistice, whose terms were laid down by President Wilson, accomplished the military aims for which we went to war; if they believe it reduced

My husband is highly delighted and my recovery is the talk of the neighborhood. I do nothing but rejoice all day long over the recovery of my health and praise Tanlac to everybody.

"I feel so grateful for my escape from the operating table and the knife that you may publish what I have said; you may, if you wish, tell other women suffering as I was to come and see me, and I will be glad to tell them about my case."

Tanlac is sold in Mt. Sterling by Land & Priest.

Irwin's
Fifth at Race

Upon Irwin's rests the distinction of being the largest Women's and Misses' Specialty Store in Cincinnati, a part of a great organization that buys in tremendous quantities the most desirable apparel, thereby getting the advantage of lower prices. At Irwin's is sold apparel of the highest grade at prices that are lower than you would expect for such delightful apparel.

On the sixth floor are well-appointed rest-rooms which you are cordially invited to make use of when in Cincinnati.

"The Store of Personal Service"

Germany to a state of military impotency, they should follow Woodrow Wilson, as the man who drew the armistice.

We wonder if the Republican platform at Chicago will carry an "On-to-Berlin" Plank.

HOW ARE YOU WOOD

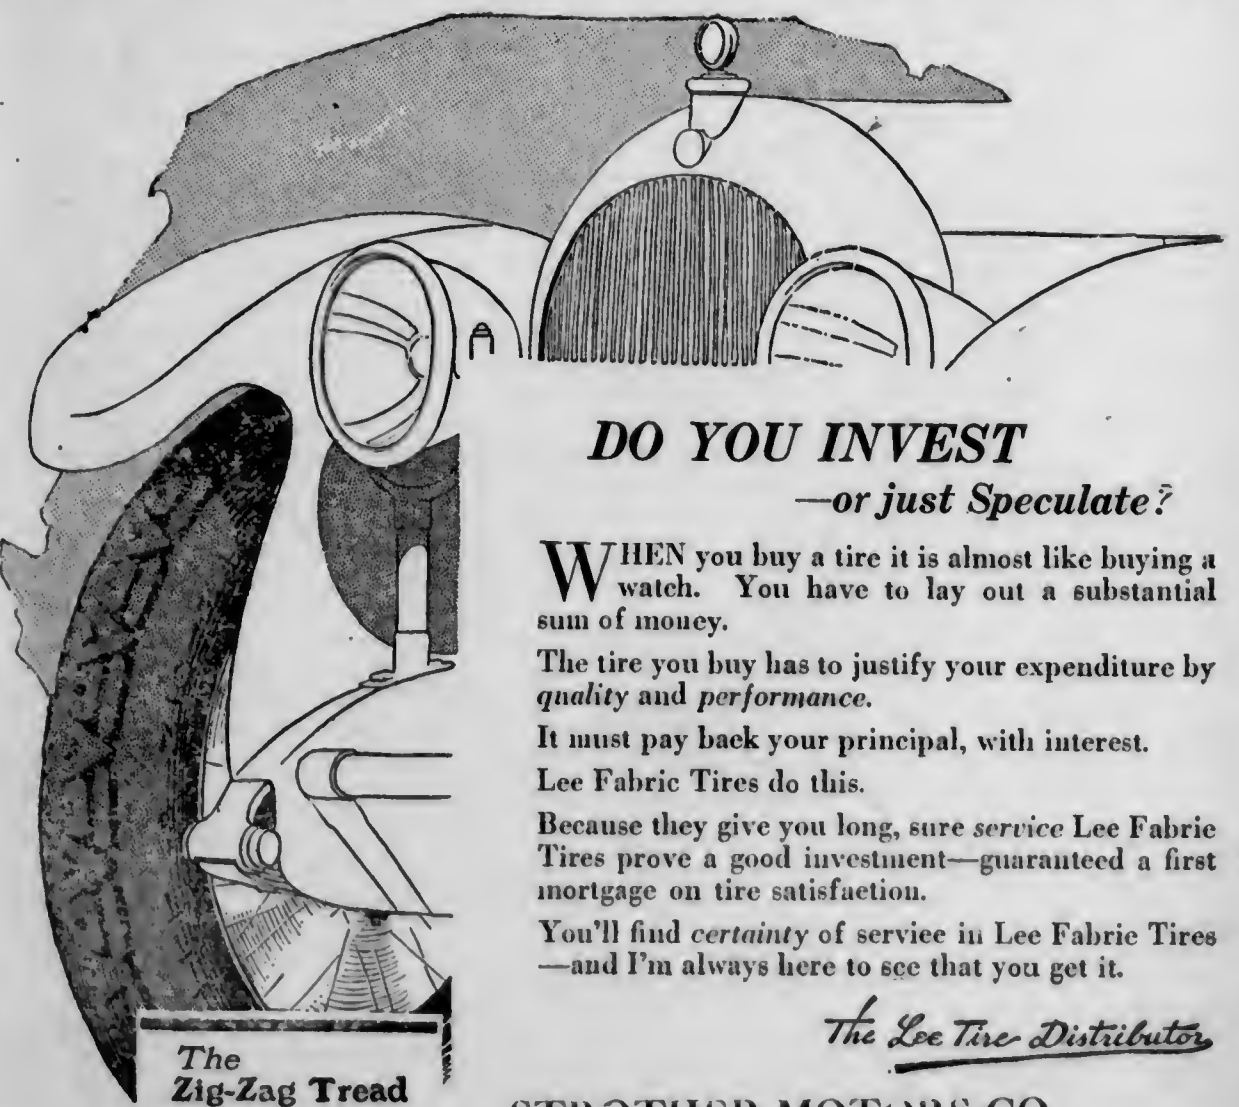

Wood Hume, the only pioneer shoe man on the road for these parts, was here Wednesday. The senior of the Advocate has known Wood for more than 50 years and during this entire period Mr. Hume has represented only the top houses and factories of the state in foot wear. He has always had a prosperous trade and today is as erect as he was half a century past, clear in mind, correct in his dealings, none of the younger set can make rings around him.

The reason this world sometimes resembles a howling wilderness is that the human animals beat the others howling; and because they can't sleep themselves, they won't let the other animals enjoy the blessings of response.

WILL LOCATE IN HUNTINGTON

S. H. Glick, who for the past 16 years has been in the junk business in this city, has sold his interests here and purchased a new business in Huntington, W. Va. Mr. Glick and his interesting family left yesterday for that city. Mr. Glick is an upright, correct business man and it is with sincere regret that Mt. Sterling gives them up, and the best wishes of scores of friends follow them to their new home.

JESSE FRENCH & SONS

"A name well known since 1876" Manufacturers of fine pianos and player-pianos of "unquestioned excellence." The cases are the most beautiful, the tone is unexcelled. For sale by J. H. Brown, Singer office, bank street. Samples on display now. (50-8t)

THE SICK

Clyde Norris is in a very critical condition and his friends are very anxious about him.

Mrs. Albert Hoffman has been quite ill for the past two weeks at her home on North Maysville street.

The condition of Clyde Norris is not at all encouraging and grave fears are entertained for his recovery.

Miss Nancy Hon is critically ill of pneumonia and her family and friends are greatly alarmed over her condition.

C. & O. TRAIN CHANGES TIME

Effective on Sunday night the C. & O. night train has been changed back to its former time of arrival, which is 9:49. East bound train No. 22, through passenger, will arrive here at 12:46 P. M.

SMALLPOX PATIENT FLEES

A general order was sent out yesterday by the Paris Board of Health to all towns within a radius of fifty miles for arrest of Charles Irvin, who escaped from quarantine at Paris, while suffering from smallpox.

WILL BUILD

Joe Langston will build at once on his lot on Holt avenue a modern frame residence.

We have a car No. 1 Timothy hay of the best. Phone 2. Mt. Sterling Com. & Storage Co., S. P. Greenwade, Prop.

All Women

think of bright, fresh

at the first "cheer-up" of the robin.

Our patterns and selections this season are more pleasing than at any time since pre war days.

We can promise you immediate services of our workmen if you order NOW. This may not be possible later on.
